

The one-stop platform that transforms your financial cycle.

billbox connects what belongs together – receipt, review, approval, payment, dispatch – in one single platform. Compliant, measurable, scalable.

An overview of the key figures and facts:

CONNECT

What billbox means for your numbers.

-70%

Shorter Cycle Times

From **receipt to payment** — automated, without manual steps.

Benchmark: APQC/IOFM

Day 1

Compliance Without a Transition Project

ZUGFeRD, XRechnung, Peppol, GoBD — compliant from day one, EU-wide and CH.

Live

Real-Time Transparency & Control

Cash flow visibility, open items, due dates — real-time decision-making, not batch reports.

~2 Wks

Integration Into Your ERP

API-first, **no migration**. Invoices are captured, validated and processed — without your team typing a single line.

TRUST

Legal compliance is not a feature. It is the foundation.

E-invoicing mandates across Germany and the EU are not a future question. billbox is ready — for all formats, all countries, all audits.

E-Invoicing: ZUGFeRD · XRechnung · Peppol

All formats recognised, processed, archived — **automatically**.

GoBD-Compliant Archiving

Full audit trail — every action, every timestamp.

GDPR · EU & Swiss Hosting

No data processing outside **certified EU/CH data centres**.

Full EU + Switzerland

Country-specific tax and compliance rules — **built in, not bolted on**.

For context: Over **56%** of companies miss compliance deadlines in international invoicing. billbox closes this gap **structurally**.

Benchmark: Forrester Wave AP Invoice Automation Q3 2024

billbox LEAF ADD-ON

CSRD mandate from 2025. Your ESG data foundation comes from billbox.

As billbox processes invoices, it automatically builds a **complete CO₂ database** — by supplier, item and Scope 1/2/3. **No separate ESG tool**.

- ✓ **Scope 1, 2 & 3** — automatically from invoice data, AI-categorised
- ✓ **Real-time CO₂ profile** by supplier and product category
- ✓ **Exportable** for CSRD reporting and external ESG systems
- ✓ **Emission intensity** relative to company growth

CSRD reporting obligation from 2025 for large companies, from 2026 for mid-market. LEAF builds the data foundation **before it becomes mandatory**.

CONTROL

Decide, don't wait. Live, not as a batch report.

CFOs need facts — not yesterday's overviews. billbox delivers real-time visibility on all key metrics.

Real-Time Cash Flow

Current liquidity view **at the push of a button** — liabilities and due dates **live**.

Open Items & Due Dates

Complete overview of outstanding invoices — by due date, cost centre, supplier.

Early Payment Discounts

Capture discounts **systematically** — discount potential prioritised **automatically**.

Approval Workflows

Multi-level approval processes **digitally mapped** — audit-proof, no email chaos.

Predictions & Forecasting

Cash flow forecasts based on real payment patterns — for strategic decisions.

Cost Centres & Reporting

Spend by cost centre, supplier and period — **exportable**, without manual effort.

GROW

Grows with you. Without proportional costs.

EU + CH

One system — all countries

~2 Wks

To go-live

Scalable without headcount growth

The billbox platform at a glance

AP / AR

Accounts payable & receivable — full cycle in one system

billbox Wallet

Mobile expense capture — directly from the app

LEAF

CO₂ tracking — CSRD-ready, no separate tool

bbXML

PDF → XRechnung / ZUGFeRD — automatic

MATCH

Auto-matching — invoice ↔ PO ↔ delivery note

TIS Integration

Payment execution — direct treasury connectivity

INTEGRATIONS

40+ accounting integrations. One platform.

billbox convinces more than just CFOs.

IT & SYSTEMS

No migration project. No system change.

- ✓ **API-first** — ERP integration in **-2 weeks**, no project risk.
- ✓ **Closed AI** — no data leaves your firewalls.
- ✓ **ISO 27001**, TLS & AES-256, EU & CH hosting.
- ✓ **Named-User Policy**, 2FA, access logging.
- ✓ **DPA, SLA, EDI authorisation** — legally regulated.
- ✓ **bbXML** — PDF → XRechnung/ZUGFeRD automatically.

TAX ADVISORY & TAX

Clean data. No extra effort.

- ✓ Chart of accounts **adopted 1:1 from export**.
- ✓ **All tax codes** (DATEV, BMD, Sage etc.).
- ✓ **GoBD-compliant**: audit trail, reversal documents.
- ✓ **ZUGFeRD · XRechnung · Peppol** fully supported.
- ✓ Tax rules **EU + CH** built in.
- ✓ **Wallet** — mobile expenses, VAT correctly posted.

ACCOUNTING & CONTROLLING

Fewer queries. More control.

- ✓ **Auto-coding** — remembered per supplier.
- ✓ **Validations** prevent posting errors.
- ✓ **Cost centres** configurable per entity.
- ✓ **Real-time**: open items, due dates, cash flow.
- ✓ **Direct connection**: no export, no upload.
- ✓ **MATCH** — invoice ↔ PO ↔ delivery note.

WHAT DECISION-MAKERS SAY

"With billbox we reduced our invoice cycle times by 70% — our accounting team is now relieved and always up to date."

CFO · MID-MARKET TRADING COMPANY, DE

"The integration into our SAP system was completed within two weeks. We never expected it to go so smoothly."

HEAD OF FINANCE · INTERNATIONAL SERVICES PROVIDER, CH

"Finally a tool that grows with us — not one we outgrow."

CONTROLLER · SCALE-UP, UK
